Welcome to perfection,
functionality and quality.

Welcome
to König & Meyer.

1,500 products.
65 years of tradition.
One brand.

„We are a family-operated company
that takes our social and environmental
responsibility seriously, generates creative
ideas, and treats our employees, customers
and suppliers fairly.”

In the music world, we have stood for intelligent accessories of an outstanding quality and unique design since 1949. Over the decades, many developments have become standard in the music industry, such as the classic 101 music stands, the 210/2 microphone stands, but also the instrument stands for trumpets, clarinets, and flugelhorns, which can be stored in the instrument bell or the invention of the ring-lock system to firmly position speakers.

We remain a family-run company for whom social and environmental responsibility is important and we are proud of where we are based, in Wertheim, Germany. Here we have 250 employees who ensure that our products are efficiently made to high quality standards with good service and punctual delivery. From development through production to marketing, we are uncompromising in our goal of providing a premium-level service.

Above all, however, it is people who make our company what it is: our customers, our employees, and our suppliers. By working in partnership with one another and ensuring mutual respect, we have enjoyed trusted collaborations for decades. It is our ethos to build up reliable and long-term relationships with our partners and to ensure that these relationships are maintained. Thank you for remaining true to our company and our products for so many years. We are looking forward to continuing our successful collaboration in the future.

TECHNOLOGY

Precision is the ultimate key to quality

Technology is our focus right from the start with the initial design of a new product. Together with our highly qualified employees we operate an independent research and development department. Processing is not the only area that requires careful planning; the qualities and functions that make our stands so outstanding also have to be well thought-out. We even make our own tools and equipment so that the new products we envision achieve the quality we are known for.

Our certified quality management system (DIN EN ISO 9001:2008) and qualified employees ensure that every single product is delivered on time in the very best quality. Innovative technology, exceptional high vertical integration and consistent re-investment in machinery provide König&Meyer with the flexibility to respond quickly and easily to customer needs.

IDEAS

Innovation as a driving force

„Our products are the result of an understanding of tradition, a demand for quality and a talent for invention.”

Driven by perfection, innovation and precision, we continually develop new products. The products of tomorrow are based on state-of-the-art computer technology, short development times and the very best quality.

Design, feel, and ergonomics – we test and assess everything to ensure it meets our uncompromising expectations from the initial design to the final product. At König & Meyer perfection is the standard. We know only a strong brand with unique service and outstanding quality will keep our customers coming back.

2013

Precision and perfection down to the smallest detail – thanks to a new flat laser cutting machine.

2010

Solar energy panels, a second tube laser cutting machine and a vertical conveyor improve process flow.

2009

Awarded the “Safety with System” seal of quality for excellent safety and health in the workplace

2007

Certification for the successful introduction of a quality management system.

2006

A new tube laser cutting machine is taken online, opening up new manufacturing potential.

2001

König & Meyer supports different bands and projects from a wide range of musical genres.

1987

The production range is expanded to include keyboard stands, mixer stands and 19” racks.

1968

Stands manufactured for other industry branches (e.g. IV stands, stands for hair-dryer hoods)

1959

An extensive range from microphone stands and boom arms to speaker stands is developed.

1951

The number of employees increases to 60. The range is expanded to include instrument and microphone stands.

1949

Company founded with ten employees who manufacture music stands and measuring instruments.

Exclusive and innovative at König & Meyer: multimedia accessories, the »Elegance« one-hand microphone stand for soundless and easy height adjustment, and the »Spider Pro« keyboard stand.

K&M KÖNIG & MEYER SPIDER PRO

MUSIC

Enjoy the pleasure of making music

Music means something different to everyone. From classic to electronic, live or solo vocals: every artist lives through the music they create. So it is important to recognize the very different needs musicians have and to be able to offer the best range of accessories.

From classical to pop, from the garage to the largest stage – across the globe musicians and artists encounter the König & Meyer product world they have come to trust – music stands, microphone and instrument stands, a wide range of other stands and holders, and much, much more.

music

PASSION

Perfection is our philosophy

„Our philosophy is to produce products of excellent quality and durability in an environmentally friendly manner so that musicians worldwide can focus on what’s most important – their music.”

Whether you are a beginner or a professional – König & Meyer offers optimal music accessories for any area of application. First-rate materials and optimized product processing result in tangible manufacturing quality right down to the smallest details. We only use precision steel tubes, which are consistent in their dimensions and tolerances. Metal and plastic parts are manufactured in-house and we have been developing and building tools and equipment ourselves for many years now. Our exceptional standards have established the König & Meyer name as an outstanding brand throughout the world.

Passion

ENVIRONMENT

Sustainable management

„Resources are too valuable to waste. Whether we are making a music stand, a microphone stand or a speaker stand, resource conservation and environmental protection are firmly anchored in every step of our production.”

We prevent waste, conserve water and energy and reduce emissions whenever possible. All environmentally relevant processes are continually reviewed and we develop strategies and measures to minimize resource consumption and environmental impact.

At König & Meyer environmental protection has been a fundamental corporate goal for decades. Our unlimited commitment to quality and the environment in the production process translates into the most effective use of raw materials, saving energy, increasing our use of renewable energies, recycling components and products at the end of their lives, avoiding pollutants in production, reducing CO₂ emissions, lowering water consumption and treating waste water from the production process, turning it back into drinking water. Since 1979 we have succeeded in reducing our water consumption by 94 percent.

König & Meyer was awarded the Environmental Prize of the Federal State of Baden-Württemberg for our outstanding achievements in promoting environmental protection and for our environment-based management.

König & Meyer has been certified according to the recognized ISO 14001 standard since 2000 and the EU EMAS Regulation since 1998.

SERVICE

A strong partnership

Along with optimal delivery capacity and products of exceptional quality, we offer our customers additional services: a 5-year warranty on our products (excludes lights, bulbs and batteries) and 10-year spare parts service for all our catalogue products. Our service range distinguishes the König&Meyer brand. We want to make it even easier for our customers to choose in favor of our music accessories.

Our idea of customer satisfaction includes offering extensive product information and quick and direct routes of communication. Visit our website for information, videos and setup instructions, and keep up the latest König & Meyer brand news on Facebook, Twitter and our YouTube channel. We welcome your feedback.

MUSIC STANDS

König & Meyer music stands are virtually unsurpassed in quality the world over. All elements of the stands' construction are precisely calibrated to ensure perfect interplay. Meticulously selected materials guarantee carefree setup and breakdown – and of course a sturdy stand – year after year.

Thanks to the variety of styles and sizes of music stands that König & Meyer has to offer, everyone – from the budding music pupil to the professional musician – can find the perfect stand for his or her individual needs.

-------	--------------

The most impressive stand in its class. This extremely stable design of stand has a sheet music desk of 500 x 240 mm – for size plus grandeur. The three-piece folding music stand has easy-to-use clamping elements. Its large music desk (with integrated name plate) has plenty of room for heavy folders and is an alternative to a music stand with a plate.

black 12270-000-55

Another “highlight” from König & Meyer’s range of lights. The exceptionally flexible goose neck allows the musician to choose either a focussed beam or flat light. Each lamp head contains a pack with four LEDs, which can be switched on or off individually. The latest LED technology guarantees a bright source of light, long product life and minimal consumption of energy. The light is attached to surfaces with a maximum thickness of 25 mm using the clip. This multi-purpose attractive lamp functions with batteries or external power supply. The power pack and 3 batteries are included in the delivery.

The useful »Mighty Bright Duet 2« light is the ideal light to take on tour or to use at home. Its flexible goosenecks mean it can easily be adjusted to suit individual needs. Long-life LEDs easily light a 2 x A4-sized surface. A practical attachment clip allows it to be used on music stands or as a standing light. Four bright light diodes to switch on individually are powered optionally by re-chargeable batteries or by a power supply unit.

Music stand light in a new innovative design with an energy-efficient and long-lasting LED technology. The light is constructed of flexible elastomer and durable ABS plastic. The brightness is dimmable between 10 and 100 lumens. Battery lifetime is up to 40 hours depending on the brightness setting. The light comes with a battery life indicator. Minimalist design shields light from audience and folds into a compact shape. A sturdy metal clip firmly affixes the light to most music stands. The light charges via micro USB port in 2 hours. Charging cable with micro USB port is included.

The completely revised world-renowned classic stand is presented in a new look. The instrument is particularly well cared for thanks to the elaborate new rubber structure. With the new innovative adjustable cross bar, guitars of different sizes or even other instruments such as a cello or French horn can be placed on the stand. For storage and transport the stand folds flat. In addition, we provide a practical transport lock. An additional feature includes integrated guitar pick holders. Heli 2 is available in black, red, blue and cork.

Instrument support	non-marring plastic material
Suitable for	acoustic and electric guitars
Rod combination	2-piece folding design
Adjustment	in 3 steps
Base dimensions	660 x 350 mm
Height	from 1,030 to 1,185 mm
Yoke	fixed

Order No.

black 17604-000-55

Have you ever inadvertently left your guitar on top of a cable or jack plug? It simply cannot happen with this unique four guitar stand. The newly developed guitar stand is the ideal stage companion, but it also does a superb job in the studio or at home. Thanks to the moveable hanger and easy height adjustment, up to 4 acoustic, electric and bass guitars are always easy to hand and ready for playing. Even unusually shaped guitars can be stored safely. Large soft foam rolls protect the guitars from inadvertent knocks or bumps. The "fit-for-tour" steel tube construction is stable and durable. The base legs can be folded with little effort into a compact and flat package for transport.

Height	700 mm

Order No.

black with translucent
support elements 17525-000-00

Guardian securely holds up to 5 E-guitars or base guitars, saving space. Specifically adjusted and cushioned rests provide a secure and protective grip. The flexible protective arms protect the guitar from moving and provide protection when putting down or picking up the guitar from mistakenly hitting the frame of the stand. The soft pads are equipped with cushioning qualities. They softly support the guitars weight and avoid any damage to the instrument. The Guardian is easy to transport and carry and thanks to an innovative folding mechanism, it can even be stored in an upright position. Flexible, proportioned system arms with integrated pick holders allow the guitars to be put down both on the right or the left side, and also ensures that the guitar strings are not touching anything. The translucent elements ensure that discoloration does not occur as a result of nitro-coatings.

**FIVE GUITAR STAND »GUARDIAN 5«**

K&M KÖNIG & MEYER
Stands For Music

DRUMMER'S THRONES, BENCHES & STOOLS

A perfect drummer's throne and the proper posture it promotes is one of the most important requirements for a drummer.

Long testing phases and intensive collaboration with professional drummers like Mike "Gomezz" Gommeringer, Toni Liota and Sven "Ice" Ehrhardt have helped us to design our latest drummer's throne models to withstand the most stringent demands. Ergonomically perfect seats and an ingenious, finely-calibrated adjustability make the musician feel right at home on a König & Meyer drummer's throne.

Thanks to the usual high-quality workmanship and extensibility, König & Meyer keyboard benches and stools have long been classics among our customers.

DRUMMER'S THRONE »PICCOLINO«

14010	BASELINE
Weight	2.6 kg
Special features	small footprint with a diameter of 430 mm makes the throne ideal when space is at a premium; the easy-to-use wing nut permits a seat rotation

K&M KÖNIG & MEYER
Stands For Music

KEYBOARD STANDS

From experience, we know that among musicians, keyboardists often subject their stands to the most rigorous treatment.

When developing new stands for keyboard instruments, König & Meyer engineers and designers therefore pay extra special attention to the sometimes enormous weight of the instruments, the overview of the instrument needed while playing and the equally important ergonomic comfort of the keyboardist's "workplace". With painstaking attention to detail, König & Meyer imbue their keyboard stands with individualised adjustability, compactness for optimal transportability, and above all, reliability – gig after gig.

The ergonomic clamping mechanism makes setup or break down easy and fast. The robust metal joint can be adjusted in 5° intervals; the short intervals provide the user with a multitude of positions. With the assistance of a scale the user is able to easily find his preferred setting. Both of the back rubber end caps can be adjusted on their axis and as such can be adjusted perfectly to the width of the keyboard. The maximum support depth is 350 mm.

Its compact steel tubing construction and large round floor protectors make this attractive keyboard table significantly more stable. Two sided spring-loaded locking screws make precision height adjustment easy. The support arms can be adjusted to suit the size of the keyboard. When folded, the table is impressively flat. The design of the table complements keyboard bench 14085 or 14086.

This highly versatile table-style keyboard stand leaves nothing more to be desired. Multiple points of adjustment and accessory options make the stand very adaptable. High-quality materials and quality craftsmanship are the mainstay of this indestructible keyboard table. A sophisticated folding mechanism means the table can be collapsed to an extraordinarily compact and portable unit.

Number of legs	3 pieces

Order No.

black	28130-011-55
-------	--------------

The amp stand can hold monitors, amps or other equipment to a max. weight of 35 kg without a problem. The angled front legs have significantly improved the stand's stability and strength. The low centre of gravity ensures even larger amps are securely displayed. The fine adjustment on the supporting leg allows a tilt between 15° and 28°. A microphone can be attached to the telescopic tube using a boom arm with a thread of either 3/8" or 5/8". Folds compactly.

K&M KÖNIG & MEYER
Stands For Music

MICROPHONE STANDS

We're especially proud of these: König & Meyer microphone stands have boasted an outstanding reputation worldwide for decades. There is hardly a music studio, concert or event that isn't outfitted with König & Meyer microphone stands.

What convinces the musicians?

The solid, tough clamp elements and mechanics, or the choice of materials and the quality of the finish? We think it's the sum of all the parts of a stand that is made with precision and a love for detail.

All microphone stands are also available in 5/8" thread

MICROPHONE STAND

**ONE-HAND
MICROPHONE STAND »ELEGANCE«**

26200	STARLINE
Weight	3 kg
Special features	triangular-shaped rods; knurled screw is impossible to lose; can be adjusted soundlessly, simply and easily; significantly light-weight, but nonetheless stable due to the ingenious round base with an integrated steel plate with an attractive plastic cover; circumferential rubber profile reduces undesirable vibration and footfall noise
Material	rod combination made from aluminum, handle bar zinc die-cast
Base diameter	275 mm
Leg construction	round base
Threaded connector	3/8"
Height adjustment	one-hand clutch
Rod combination	2-piece folding design
Height	from 1,055 to 1,735 mm

Order No.

black 26200-300-55

The elegant combination of triangular-shaped sections and the new design of the slender one-hand adjustment mechanism go harmoniously with standard microphone clips and microphones. The height of the stand can be adjusted soundlessly, simply and easily using the unique one-hand clutch. The stand is significantly lightweight, but nonetheless stable due to the ingenious round base with an integrated steel plate with an attractive plastic cover. The base's circumferential rubber profile reduces undesirable vibration and footfall noise even when the stand is tilted far over to the side.

Smoothly and silently adjustable one-hand system

Lightweight, but nonetheless stable steel base

ONE-HAND MICROPHONE STAND »PERFORMANCE«

26250	STARLINE
Weight	2.99 kg
Special features	round-shaped rods; soundless and easy height adjustment; significantly lightweight, but nonetheless stable due to the ingenious round base with an integrated steel plate with an attractive plastic cover; circumferential rubber profile reduces undesirable vibration and footfall noise
Material	rod combination made from aluminum, handle bar plastic
Base diameter	275 mm
Leg construction	round base
Threaded connector	3/8"
Height adjustment	one-hand clutch
Rod combination	2-piece folding design
Height	from 1,055 to 1,750 mm

Order No.

black 26250-300-55

The stable combination of high quality round-shaped rods and the elegant one-hand adjustment present a harmonious overall appearance. With the practical one-hand system the height of the stand can be adjusted smoothly and silently (no scratching noises). The ingenious steel base with its elegant plastic cover provides more stability even though the base is much lighter. A circular rubber insert ring on the base also reduces unwanted vibrations and foot traffic noise, even when the stand is placed in extreme positions. In addition, the floor (e.g. wood floor) is protected from possible damage.

MICROPHONE STAND

MICROPHONE STAND »RIEN«**25950**

Weight	2.98 kg
Special features	extra low design; zinc die-cast base; very short, heavy legs
Material	steel
Leg construction	socket with foldable legs
Threaded connector	3/8"
Boom arm	2-piece telescopic design
Boom arm clamping	wing nut
Boom arm length	from 425 to 725 mm
Height	280 mm

Order No.

black	25950-300-55
-------	--------------

The low-level stand is particularly suitable for bass drums or bass amplifiers. Very short and heavy legs mean this stand needs very little standing space. A telescopic boom arm completes the features of this compact unit.

black 23790-000-55

Professional carbon microphone fishing pole. The exceptional characteristics of this microphone fishing pole include sturdiness and high stiffness considering its light weight. The four clamps with the innovative locking system are easy to use and provide highly functional locking force. The fishing pole can be adjusted variably between 1,000 and 3,825 mm. Cables can be placed inside the pole. An upholstered carrying case is included.

Goose neck diameter	8 mm
Goose neck length	330 mm

Order No.

black 23966-000-55

This high-quality popkiller is an essential piece of equipment for every professional recording studio. The large nylon screen is a perfect filter for troublesome buzzing and popping sounds. In addition it is better protection than a metal screen against moisture. The stable gooseneck can be mounted on all standard microphone stands and is suitable for many types of performance.

Male thread	3/8" with thread adapter 5/8"
Female thread	5/8" with thread adapter 3/8"

Order No.

black	23910-000-55
-------	--------------

The new König & Meyer Quick Release Adapter makes quickly switching of microphones or other accessories on stage or in studio easier. The adapter consists of two components. The lower section is screwed into the 3/8" or 5/8" microphone stand thread, and the upper section is screwed on using a 3/8" or 5/8" microphone clamp or holder or to other accessories. The lower section ensures the secure and flexible hold of the upper section through 8 punched bore holes. The upper section is used to remove or click the microphone into place using the quick-release adapter. By pressing the scored plastic handle on the upper section both sections can either be disconnected or clicked in place. The adapter is made of high-quality aluminum. A thread adapter is included with the delivery for 5/8" threading. Both adapter components can be left attached to the stand i.e. on the microphone/accessories.

SPEAKER, LIGHTING AND MONITOR STANDS

König & Meyer speaker, lighting and monitor stands set the standard in their class.

Reliability, stability and solidity are particularly important in this area: Nothing less than the safety of the musicians and the audience is at stake.

Intensive research into appropriate materials from among the highest-quality plastics available and the construction of highly durable connecting parts are just some of the individual steps in a long development process.

Our latest models from the "Ring Lock" series also prove that König & Meyer speaker stands aren't just exceptionally reliable, but also provide a big plus when it comes to practicality and handiness.

All clamps are high quality zinc die-cast. The leg construction and large fixed foot end caps enhance safety and stability. This professional stand is TÜV (German Technical Supervisory Agency) approved for a maximum central load capacity of 50 kg. Other features are the pull-out guard for the extension tube, the integral anti-shock component and comfortable height adjustment with spring-loaded bolt and locking screw. Comes with a mounting aid on the extension rod.

SPEAKER STAND »RING LOCK«

21467	STARLINE
Weight	4.6 kg
Special features	further development of 214/6; lightweight stand; steel extension tube; patented expanding mandrel system »Ring Lock«; vibration-free connection due to moveable plastic splints
Material	aluminum
Number of legs	3 pieces
Leg construction	tube legs with double cross braces
Height adjustment	spring-loaded bolt and locking screw
Max. load capacity	50 kg
Tube end(s)	»Ring Lock« diameter 35 to 37 mm
Rod combination	2-piece folding design
Height	from 1,370 to 2,170 mm

Order No.

black 21467-000-55

An exceptional aluminum speaker stand with a unique patented expanding mandrel system that provides a stable, tight and firm fit for speakers. The movable plastic splints provide for a vibration-free connection between the rod and the speaker. Connecting the speaker is easy and is done using the handy ring lock - which is simply placed in position and screwed on. The height is adjusted by an easy-to-use spring-loaded bolt and locking screw. Double foot struts, zinc die cast clamping brackets and large end caps provide for highest degree of stand stability. It can't get any better than this!

Unshakable and Stalwart! This high quality, height adjustable distance rod is a guarantee for a secure, stable and quiet connection to satellite systems. The height is adjusted by an easy-to-use spring-loaded bolt and locking screw. The distance rod is connected to the subwoofer using the M20 threaded bolt. The unique patented expanding mandrel system provides a stable, tight and firm fit for satellite speakers. The movable plastic splints provide for a vibration-free connection between the rod and the speaker. Connecting the speaker is easy and is done using the handy ring lock - which is simply placed in position and screwed on.

black

24624-000-55

Attractive lighting stand. Thanks to the heavy, flat steel plate the stand is well suited for use in small areas. The proven safety bolt with locking screw provides for comfortable and safe height adjustment. The stand's maximum extension height is 2400 mm and maximum weight is 18 kg. The integrated M10 threaded bushing provides for the attachment of crossbars.

TÜV type approved for loads up to 30 kg

LIGHTING/SPEAKER STAND

MULTIMEDIA EQUIPMENT

The growing market for multimedia products has in turn sparked a steadily climbing demand for holders and stands for diverse purposes.

For example, monitors of all shapes and sizes need to be mounted on shop ceilings, on the walls of trade fair stands, or presented on stands in entrances.

König & Meyer offers flexible holders and stands for nearly every purpose in unmistakable designs and the usual high-quality workmanship.

Strength and stability! The mobile table stand for your iPad Air 2. The iPad Air 2 is held safely and securely thanks to the sturdy steel base. With this high-quality table stand, you can easily read, write, surf the Internet or just view pictures or videos without any vibrations. The iPad Air 2 clips in and out of the holder effortlessly. An easy-to-use wing nut adjusts the tilt so that every user can adapt the viewing angle to suit them optimally. The iPad Air 2 can be rapidly switched between the vertical and horizontal format without slipping.

Swiveling in all directions.

Switches rapidly between the vertical and horizontal format without slipping.

Screw-on to	tube diameter up to 30 mm
Swivel	90°
Adjustment	tension spring

Order No.

black 19740-000-55

A distinctive tensioning mechanism means this holder is suitable for attaching tablet PCs like iPad, iPad Air, iPad mini, Amazon Kindle, Samsung Galaxy Tab, Google Nexus, Asus Transformer or Microsoft Surface in size from 120 to 220 mm to a shaft diameter of max. 30 mm. The holder is equally suitable for tablets with a protective sleeve or case. A tension spring allows the tablet to be clipped in and removed from the holder easily and quickly. The holder does not affect the functioning of the operating controls. The felt-protected adjustable bracket provides extra security. The tablet holder can of course be switched between portrait and landscape format and potential slippage is prevented.

Stands For Music

SHOP FITTINGS

The brand-compatible presentation of products in a shop is playing an increasingly important role in the buying decision process.

Clear and visually appealing, the large selection of König & Meyer instrument holders in combination with the professional SPACEWALL shop fitting system are a perfect solution for your business.

The flexible SPACEWALL wall panels can be installed in practically any texture or colour you desire in any shop. They will show off your merchandise perfectly, whether you have a small showroom or a huge megastore.

SPACEWALL®

44000

Order No.

44000-000-00

The SPACEWALL® shop-fitting system can be individually implemented in already existing shops or in complete new stores. You can choose for example from following surface finishes for your slatwall: unfinished or paint finished surface or a painted wall according to your desired RAL/NCS color. You also have the choice between a melamine resin coated surface in the colors white, grey, ivory or cream-white or a plastic-laminated slatwall in either white E110 MP or grey E 6 MP. Further possibilities are metallic or acrylic mirror designs or wood veneer finishes like pine, spruce, maple or alder. Further finish variations on request. We offer you the following slat widths: 53.1 mm, 76.3 mm, 88.0 mm*, 101.8 mm, 152.6 mm, 203.5 mm, 244.2 mm, 305.3 mm. Head pieces and bases can be produced on request. Ask for special design variations and other sizes for your slatwall!

* Size 2430 mm x 1210 mm or 1210 mm x 2430 mm.
